

lab monitors

open + close lab for Graphics Software Course Students_fall 2003

Responsibilities include unlocking and relocking the lab for these time periods. If another Junior, Senior or graduate is present, please give them the lab key prior to leaving the lab. No other students other than those enrolled in the software course or block and graduates students may be in the lab (excluding canon use). Please have the student sign-in and out (list on lab B wall) prior and after working at computer. The monitor is not responsible for troubleshooting computer problems. If there is a computer problem please put the specific problem and computer number on the list on the lab wall. **Note:** If the monitor cannot make it on that day it is their responsibility to find someone who can.
